Nanyang Technological University, Singapore (NTU) **Aug 2021 – Aug 2024**

Bachelor of Business, Honours (Merit) With A Specialization in Marketing CGPA: 3.89

Personal Portfolio: www.ngyanming.com

Professional Experiences

Edible Garden City Pte Ltd. **Jul 2025 – Present**

Marketing Executive

Transformed a fragmented marketing function into a data-driven operation, building the foundational systems for content and analytics that drove measurable growth across all crucial marketing digital channels.

- **Data & Analytics Infrastructure:** Deployed a comprehensive analytics stack (Wix Analytics, GA4, Search Console) to enable granular engagement tracking and data-driven decision-making. Grew website traffic by 14% while resolving 90+ accessibility issues.
- **Content Intelligence & Workflow Management:** Leveraged Google Trends and Google Alerts to identify emerging search topics and industry trends, feeding data-driven insights into the content ideation and briefing process to ensure relevance and timeliness.
- **SEO & Content Strategy:** Drove 5+ key pages into the Top 10 SERPs for high-intent keywords by improving SEO through research, internal linking, content hierarchy, and high-intent keyword optimization. Managed the end-to-end content workflow, from identifying search gaps to briefing and optimizing content.
- **Search AI Visibility:** Optimized content to serve as a reference source for ChatGPT and Google's Search AI-generated responses, increasing brand authority and visibility in AI-driven search environments.
- **UX & Information Architecture**: Restructured the website's information architecture, consolidating disparate content into a single hub. Improved layout, UI/UX, and content hierarchy based on session recordings and heatmap analysis, resulting in a 9% reduction in overall bounce rate and reduced excessive scrolling and dead clicks.
- **Performance Marketing Management:** Managed Meta ad campaigns that drove 5.68x ROMI, contributing to 40% of the Education department's revenue and helping the department exceed annual targets by 6.3% through iterative creative and targeting refinement.
- **Email Marketing:** Sustained a consistent 40%+ average open rate since tenure (up 6.1%) alongside growth in EDM subscribers by 28.2% (3.75% above target) through segmentation, personalization, and testing.
- **Social Media Strategy:** Led a strategic social media overhaul that lifted total engagement by 29.7% and reduced skip rate from 65.3% to 58.2% via platform-specific content.
- **Team Leadership:** Led a team of four to deliver an integrated marketing communications (IMC) and social media campaign that grew organic views by 65.5% across Facebook and Instagram within two months.

DFS Venture Singapore Pte Ltd. **May 2023 – Aug 2023**

Systems Intern (Human Resources)

Supported the deployment of a sales commission system through rigorous testing, vendor coordination, and quality assurance, ensuring a seamless and bug-free rollout.

- **System Testing & Quality Assurance:** Spearheaded functional and integration testing with a partner for a sales associate commission system, identifying and resolving 20+ bugs, which improved overall system functionality.
- **Vendor & Stakeholder Coordination:** Partnered with external vendors to troubleshoot and resolve system bugs, ensuring system integrity and seamless deployment.
- **User Acceptance Testing (UAT):** Contributed to user acceptance testing for system deployment and ensuring on-time project delivery.

Earthlink, Nanyang Technological University **Aug 2022 – May 2023**

Events Executive (Gardening)

- **Program Development & Event Operations:** Spearheaded interactive gardening workshops that engaged 50+ students, increasing awareness of food security and sustainability initiatives on campus.

- **Vendor Negotiation & Cost Optimization:** Negotiated with external vendors to secure a 47% cost reduction for urban farm tours, saving significant costs to enable 66% broader student participation.
- **Partnership Development & Stakeholder Management:** Founded a sustainable partnership with an external urban farm vendor as part of the second cohort of the club's new gardening portfolio; sourced and secured the collaboration, which remains active and successful after my tenure.

Evonik (SEA) Pte Ltd. **May 2022 – Aug 2022**

Human Resources Intern (Compensation & Benefits)

Optimized HR processes through automation, data analysis, and strategic research, delivering measurable cost savings and operational efficiencies.

- **Process Automation & Data Management:** Developed an automated model using Excel for employee service date calculations, reducing manual errors and saving productivity hours. Also streamlined data management for employee insurance coverage, ensuring 100% accuracy in cost allocation across all the cost centres.
- **Data Analysis & Research:** Analysed quantitative and qualitative employee survey data and utilization rates, delivering research reports with actionable insights that led to an increase in flexi-benefit program engagement.
- **Market Research & Cost Optimization:** Conducted in-depth market research, providing recommendations that optimized rates for Evonik's foreign employment scheme, resulting in a 12% cost reduction.
