Professional Experiences

Edible Garden City Pte Ltd.

Jul 2025 – Present

Marketing Executive (Digital)

- Owned end-to-end marketing funnel (strategy → execution → analysis), embedding a data-driven decision-making style across digital channels.
- Increased website traffic by 60% in H2 2025 vs H1 2025, while resolving 90+ accessibility issues and implementing structured analytics (GA4, Search Console) to track engagement and conversions.
- Improved SEO performance, achieving Top 10 SERP rankings for key pages through enhanced internal linking, content hierarchy, and high-intent content optimization.
- Led a strategic social media overhaul in H2 2025, growing total engagement by 29.7% and 3-second video views by 180% through platform-specific content strategies and short-form video optimization.
- Drove EDM subscriber growth 28.18% (Jul–Dec 2025) exceeding year-end target by 3.75%, while maintaining >40% open rates through segmentation, personalization, and structured testing.
- Executed Meta ad campaigns achieving high reach and impressions at low cost per result, using iterative creative and targeting refinement.
- Collaborated cross-functionally with sales, operations, and external partners to deliver integrated campaigns aligned with business goals.

DFS Venture Singapore Pte Ltd.

May 2023 – Aug 2023

Systems Intern (Human Resources)

- Spearheaded functional and integration testing with a partner for a sales associate commission system, identifying and resolving 20+ bugs, which improved overall system functionality.
- Partnered with external vendors to troubleshoot and resolve system bugs, ensuring system integrity and seamless deployment.
- Contributed to user acceptance testing (UAT) for system deployment and ensuring on-time project delivery.

Earthlink, Nanyang Technological University

Aug 2022 – May 2023

Events Executive (Gardening)

- Spearheaded interactive gardening workshops that engaged 50+ students, increasing awareness of food security and sustainability initiatives on campus.
- Negotiated with external vendors to secure a 47% cost reduction for urban farm tours, saving \$350 and enabling broader student participation.
- Founded a sustainable partnership with an external urban farm vendor as part of the second cohort of the club's new gardening portfolio; sourced and secured the collaboration, which remains active and successful after my departure.

Evonik (SEA) Pte Ltd.

May 2022 – Aug 2022

Human Resources Intern (Compensation & Benefits)

- Developed an automated model for employee service date calculations, reducing manual errors and saving productivity hours.
- Streamlined data management for employee insurance coverage, ensuring 100% accuracy in cost allocation across all the cost centres.
- Analysed quantitative and qualitative employee survey data and utilization rates, delivering research reports with actionable insights that led to an increase in flexi-benefit program engagement.
- Conducted in-depth market research, providing recommendations that optimized rates for Evonik's foreign employment scheme, resulting in a 12% cost reduction.
